### Josephine's Story:

Josephine's mother died when she was an infant. Her Father tried to provide formula but quickly ran through his savings, as formula is expensive in our area. When her Father could no longer afford formula, Josephine was brought to her Aunt and Uncle who showed her here. They had just had twin girls and tried for as long as they could to take care of Josephine. They realized that their only option was to bring her to the Children's Home.

But now years later, Josephine is a strong and very smart girl. She has a great relationship with her family and they are so happy to have her back in their lives. When visiting, I always find Josephine and her twin cousins running and playing together. Her aunt and uncle welcome us into their house and express their gratitude and joy to have Josephine back.

Even though Josephine is now living with her aunt and uncle, we will continue to provide for all her education expenses (tuition, uniforms, school supplies) and visit her regularly to see how she is doing.

*Thank you for your prayers and support*
