CHOLA'S Story:

Chola Gentel was born on 10/23/2005

Chola and Queenie were the first babies to join our orphanage. He was one year older than she was. They became the "big brother & sister" to all the next incoming 33 babies.

Queen, Theresa and Chola

Chola loved to eat. He actually got a little chunky.
Chola was quite careful & cautious about new things, but he had help on everything at the orphanage.

When going on a trip to the doctor check-up with Mommy & Daddy, it helped widen his view for new things!

Chola has always been serious about his studies and loved learning new things. Then, came the day when he graduated from primary school and was ready for boarding school!! No one at the orphanage had gone away for this before, so this was certainly a test of how he would do. He, Queen and Theresa were the very first children to go away from their orphanage home for 3 months!

He even got bold enough to let Daddy Tom shave an animal on his head!!

After 3 months time, he returned (there is one month between each 3-month term). He told all the kids what it was like, how hard it was, but how he survived!!

Seeing how brave he was and that he made it, the other children studied hard at home so they would pass their exams, then they too would experience this next part of their lives!!

The boarding school has been so impressed by Chola's Integrity and leadership qualities, that they have chosen him to be prefect. This is an honor!

In January, Chola will be 12th grade, his last year in high school. His plans are to become a doctor. He knows that it will be a long journey to get there, but his vision is high and firm.

For several years, he had a precious lady who was his sponsor, but 2 years ago she passed away. If you would like to be Chola's sponsor, please designate his name on your check.

Thank you for your prayers and support
